Rebates! We have 'em for members

Don't forget that Sun River Electric has rebates for household appliances. SREC offers \$25 rebates on clothes washers, dishwashers, refrigerators and freezers that are Energy Star compliant. Just download the rebate form from SREC's website, www.sunriverelectric.coop, fill it out, attach a copy of the receipt and send it to SREC. SREC

will then review the rebate form and credit your account \$25 per compliant appliance. "Energy Star" rated appliances can be found at www.energystar.gov.

Also remember that SREC offers a \$100 rebate on electric water heaters. To be eligible, the water heater has to be at least 90 percent efficient. The water heater rebate form is also on SREC's web-

site, download it and fill it out, send it in with a copy of the receipt and get the \$100 credit. The water heater must be at least 40 gallon capacity.

All rebates must be submitted within 90 days of purchase.

If you have any questions about rebates call Sun River Electric at 467-2525 or 1-800-452-7516.

WATCH OUT ABOVE — for power lines

Please remember to work safely around power lines this farming season. Be aware of power line heights and locations while moving machinery and know the height of your machinery. A good rule is to stay at least 10 feet away from high voltage power lines.

If your piece of equipment or tractor comes in contact with a power line, stay inside and call for help. Keep others away as well. If you must leave don't allow your body to come in contact with the equipment and the ground at the same time, jump as far away as possible. Once you're off don't go back until co-op personnel tells you it's safe to do so.

Do not go near a downed power line. Always assume it is still energized.

Every year in the US approximately 60 farm workers are electrocuted, play it safe, stay away from overhead power lines.
